

FLOWA-BLOOM

LIQUID FERTILIZER

Organic Bloom Fertilizer

WHAT IS FLOWA-BLOOM?

We are in tune with the plants' needs in order to provide exactly what they require during the flowering period. In turn, they reward us with a **large number of big buds, full of terpenes and flavour**, expressing the characteristics of its genetics to the fullest.

Flowa-Bloom is a flowering fertilizer perfect for short-cycle and high-demand plants. In each watering with Flowa-Bloom we promote the **fattening of the final production**. This is thanks to a good source of easily absorbable phosphorus of natural origin, animal and vegetal proteic content, high percentage of amino acids, and high sugar concentration.

Moreover, the phosphorus works in harmony with the plant's natural rhythm during both day and night, helping with the **activation of the flowering process**.

If we **combine Flowa-Bloom with Grow-Soldier** as a nitrogen source, we ensure an increase in the flowering performance and better organoleptic results. The experts also recommend to **add humic acids for really exuberant blooming**.

Flowa-Bloom ensures constant NPK release in the substrate, creating a growing media that is alive, organic, and full of nutrients for the miniature ecosystem that grows in our pot.

APPLICATION

Flowa-Bloom is suitable for all mixtures of substrates, mediums and all growing methods.

Water  Regular watering **Dose**  3-4 ml per litre of water

SETTING	PHASE	FUNCTION
 INDOOR	 GROWING	NPK
 OUTDOOR	 BLOOMING	NUTRITION

⚠ CAUTIONS AND WARNINGS

Keep out of the reach of children.
Do not swallow.
Use following the instructions.

HOW TO USE IT

Flowa-Bloom is an independent flowering fertilizer, which can be used during the whole flowering period, up until harvest, in any growing media offered by Juju Royal Julian Marley Powered by Biobizz.

We recommend using approximately 2-4ml of Flowa-Bloom per each litre of water. You can find more specific doses and application advice in the Juju Royal Julian Marley Powered by Biobizz Feeding Guide.

FORMATS
250ML, 1L, 5L

FEEDING PLAN

Follow these doses when using:

LIGHT-REBEL or **COCO-KAYA**
